

SUSTAINABILITY

Products contributing to LEED Credits

Anatolia Tile offers over XX product lines featuring sustainable attributes. This includes natural stone, porcelain tile, ceramic tile, glass tile, and other mosaic materials.

The products listed below may contribute to LEED points.

PRODUCTS	MR 3	MR 4	MR 5.1 + 5.2	MR 6	MR 7	IEQ 4.4	ID 1	Other Certifications	% OF RECYCLED CONTENT / REGION OF MANUFACTURE
CERAMIC TILE									
Amaya - Porcelain Tile Applicable Colors: Tobacco, Walnut, Blend, Natural, Ash		●						Green Guard Gold / EPD per ISO 14025	10% recycled content
Amelia - Porcelain Tile Applicable Colors: Mist, Smoke, Carbon, Earth									
Antico - Porcelain Tile Applicable Colors: Ivory, Sand, Classic, Walnut								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Artifact - Porcelain Tile Applicable Colors: Dawn, Fog, Sienna, Umber								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Aspen - Porcelain Tile Applicable Colors: French Oak, Ash, Beachcomber, Sequoia, Paper Birch, Grey Ridge								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Bellina - Ceramic Tile Applicable Colors: Grey, Cream								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Bengal - Porcelain Tile Applicable Colors: Autumn, Sierra		●							40% recycled content
Bizantino - Porcelain Tile Applicable Colors: Ivory, Bianco, Rustic, Argento								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Cabin - Porcelain Tile Applicable Colors: Paper Birch, French Oak, Sandalwood, Cypress									
Capistrano - Porcelain Tile Applicable Colors: Classico, Walnut, Safari, Cotto, Fusion, Villa								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days

PRODUCTS	MR 3	MR 4	MR 5.1 + 5.2	MR 6	MR 7	IEQ 4.4	ID 1	Other Certifications	% OF RECYCLED CONTENT / REGION OF MANUFACTURE
Capri - Porcelain Tile Applicable Colors: Ivory, Beige, Classico		●						LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	10% recycled content
Carisma - Porcelain Tile Applicable Colors: Bianco, Almond, Grigio								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Centurywood - Porcelain Tile Applicable Colors: Cinnamon, Saddle, Ash, Dune		●							10% recycled content
Ceraforge - Porcelain Tile Applicable Colors: Oxide, Chromium, Lithium, Titanium, Iron		●						Green Guard Gold / EPD per ISO 14025	10% recycled content
Cinq - Ceramic Tile Applicable Colors: White, Cream, Grey, Brown, Black		●						Green Guard Gold / EPD per ISO 14025	10% recycled content
Classic - Porcelain Tile Applicable Colors: Carrara, Calacatta, Pulpis (Moca, Grey, Ivory)								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Coliseo - Porcelain Tile Applicable Colors: Pearl, Desert, Platinum, Graphite								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Crossweave - Porcelain Tile Applicable Colors: Heather Grey, Canvas, Flax, Parchment, Shade		●							10% recycled content
Crux - Porcelain Tile Applicable Colors: Ivory, Ash, Mica, Earth		●						Green Guard Gold / EPD per ISO 14025	10% recycled content
Dakota - Porcelain Tile Applicable Colors: Ivory, Sand, Beige, Walnut									
Davenport - Porcelain Tile Applicable Colors: Ice, Ash, Earth, Mica								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days	
Eramosa - Porcelain Tile Applicable Colors: Carbon, Ice, Clay, Natural, Sand								LEED v4 ID+C, BD+C Collaborative for High Performance Schools EQ 7.1.2 Criteria of MAS Certified Green® Program TVOC Emissions at 14-days

Pasha Stainless Steel - Stainless Steel Mosaics	●	●							60% recycled content in stainless steel (industry standard), 20% recycled content in porcelain tile body
Bliss Satin Metal - Satin Metal Mosaics Available Colors: Nickel, Bronze, Pewter, Oil Rubbed Bronze		●					●		body contains recycled stone particles mixed with resin polymer, and coated with metal powder. 65% recycled content
Metal Decoratives - Trim Category Available Colors: Bronze, Pewter, Copper, Rust		●					●		body contains recycled stone particles mixed with resin polymer, and coated with metal powder. 65% recycled content
Obsidian Antique Mirror Tile - Mirror Tile & Mosaic Available Colors: Antique Bronze, Antique Silver		●							20% recycled content
Marmilline Engineered Stone - Trim Category Available Styles: All colors & Formats									10% recycled content

All claims listed are per manufacturer's provided information.

Descriptions below are based on LEED v3, 2009; Commercial Interiors

MR Credit 3.1: Materials Reuse INTENT: To reuse building materials and products to reduce demand for virgin materials and reduce waste, thereby lessening impacts associated with the extraction and processing of virgin resources.	REQUIREMENTS: Use salvaged, refurbished or reused materials, the sum of which constitutes at least 5% or 10%, based on cost, of building (construction) materials, excluding furniture and furnishings. The minimum percentage materials reused for each point threshold is as follows: 5%: 1 point, 10%: 2 points.
MR Credit 3.2: Materials Reuse - Furniture and Furnishings INTENT: To reuse building materials and products to reduce demand for virgin materials and reduce waste, thereby lessening impacts associated with the extraction and processing of virgin resources.	REQUIREMENTS: Use salvaged, refurbished or used furniture and furnishings for 30% of the total furniture and furnishings budget
MR Credit 4: Recycled Content INTENT: To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.	REQUIREMENTS: Use materials, including furniture and furnishings, with recycled content such that the sum of postconsumer recycled content plus 1/2 of the preconsumer content constitutes at least 10% or 20% based on cost of the total value of the materials in the project. The minimum percentage materials recycled for each point threshold is as follows: 10%: 1 point, 20%: 2 points. The recycled content value of a material or furnishing is determined by weight. The recycled fraction of the assembly is then multiplied by the cost of assembly to determine the recycled content value.
MR Credit 5: Regional Materials INTENT: To increase demand for building materials and products that are extracted and manufactured within the region, thereby supporting the regional economy and reducing the environmental impacts resulting from transportation.	REQUIREMENTS: OPTION 1 (1 point): Use a minimum of 20% of the combined value of construction and Division 12 (Furniture) materials and products that are manufactured regionally within a radius of 500 miles. OR OPTION 2 (2 points): Meet the requirements for Option 1. Use a minimum of 10% of the combined value of construction and Division 12 (Furniture) materials and products extracted, harvested or recovered, as well as manufactured, within 500 miles of the project.
MR Credit 6: Rapidly Renewable Materials INTENT: To reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.	REQUIREMENTS: Use rapidly renewable construction and Division 12 (Furniture) materials and products for 5% of the total value of all materials and products used in the project, based on cost. Rapidly renewable building materials and products are made from plants that are typically harvested within a 10-year or shorter cycle.
MR Credit 7: Certified Wood INTENT: To encourage environmentally responsible forest management	REQUIREMENTS: When using the new wood-based products and materials, use a minimum of 50% that are certified in accordance with the Forest Stewardship Council's principles and criteria. Division 12 (Furniture) material value is included in the determination of the certified wood content.
IEQ Credit 4.4: Low-Emitting Materials - Composite Wood and Agrifiber Products INTENT: To reduce the quantity of indoor air contaminants that are odorous, irritating, and/or harmful to the comfort and well-being of installers and occupants.	REQUIREMENTS: composite wood and agrifiber products used on the interior of the building (i.e. inside the weatherproofing system) must contain no added urea-formaldehyde resins. Laminate adhesives used to fabricate on-site and shop-applied composite wood and agrifiber assemblies must not contain added urea-formaldehyde resins. Composite wood and agrifiber products are defined as: particleboard, medium density fiberboard (MDF), plywood, wheat board, strawboard, panel substrates and door cores. Materials considered fixtures, furniture, and equipment (FF&E) are not considered base building elements and are not included. Products covered by IEQ Credit 4.5, Low-Emitting Materials, System Furniture and Seating are excluded from these requirements.
