Form collection

A subtle handmade and exotic allure mixed to a modern-industrial feel defines the exclusive Form collection, a rich and versatile series able to enhance most interiors, from minimal architectures to retro environments. Classic floral designs from ancient damask patterns and cement look-alike tiles come together in a sophisticated balance of neutral surfaces and decorative patterns. Form porcelain tile delivers a bold splash of design character to most installations, through patterns and formats that work together to inspire and achieve the aesthetic of a premium handmade collection.

Key highlights

Timeless encaustic patterns are combined with Natural concrete designs to create looks that provides classical decor motifs with contemporary industrial backgrounds. The collection has a wide variety of looks offering the freedom to either focus on a particular pattern or mix and match to create interesting and diverse combinations.

Tiles and trims

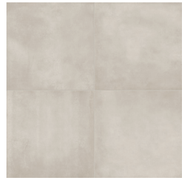

The Form Concrete tiles are ideal as subtle monochrome grids with an evocative industrial feel. For a more creative effect, combine them with any of the patterned tiles. With a smooth finish and thick handmade feel, the Form collection offers maximum versatility. Ideal for floors, walls, backsplashes, interiors, and exteriors.

Decorative tiles

The beautiful raw texture of the decorative concrete tiles is a perfect balance between tradition and innovation. Offered in neutral nuances, swaying in the color range of warm and cold hues of grey, the Form collection also offers pre-built randomized blends created especially to provide you with a pre-set combination of patterns.
