

HANDCRAFTED IN SOUTHERN CALIFORNIA SINCE 1966

CONCRETE TEXTURES

6" Artillo Concrete Hexagon
Early Gray - Vintage

+ CONCRETE TEXTURES

+ STANDARD

ARTO's Standard concrete texture varies from item to item and does not need to be specified. Just one example of available Standard textures, the Roman tile pictured left features a smooth surface—compared to other styles and items that feature rough or textured surfaces.

+ LUNA

Our most distressed surface texture, Luna is inspired by the moon's fascinating landscape of craters, seas, valleys, and other topographical features. The effect captures ARTO's signature "rustic elegance."

+ LIMESTONE

Our Limestone surface texture features an organic, weathered appearance that generally lightens the concrete's original color. Limestone is a great option for pools and other applications where extra slip resistance is desired.

+ TRAVERTINE

ARTO's Travertine surface texture adds a rustic, pitted surface to any ARTO color. Choose Travertine as a complement to other materials, or to create your own distinctive appearance.

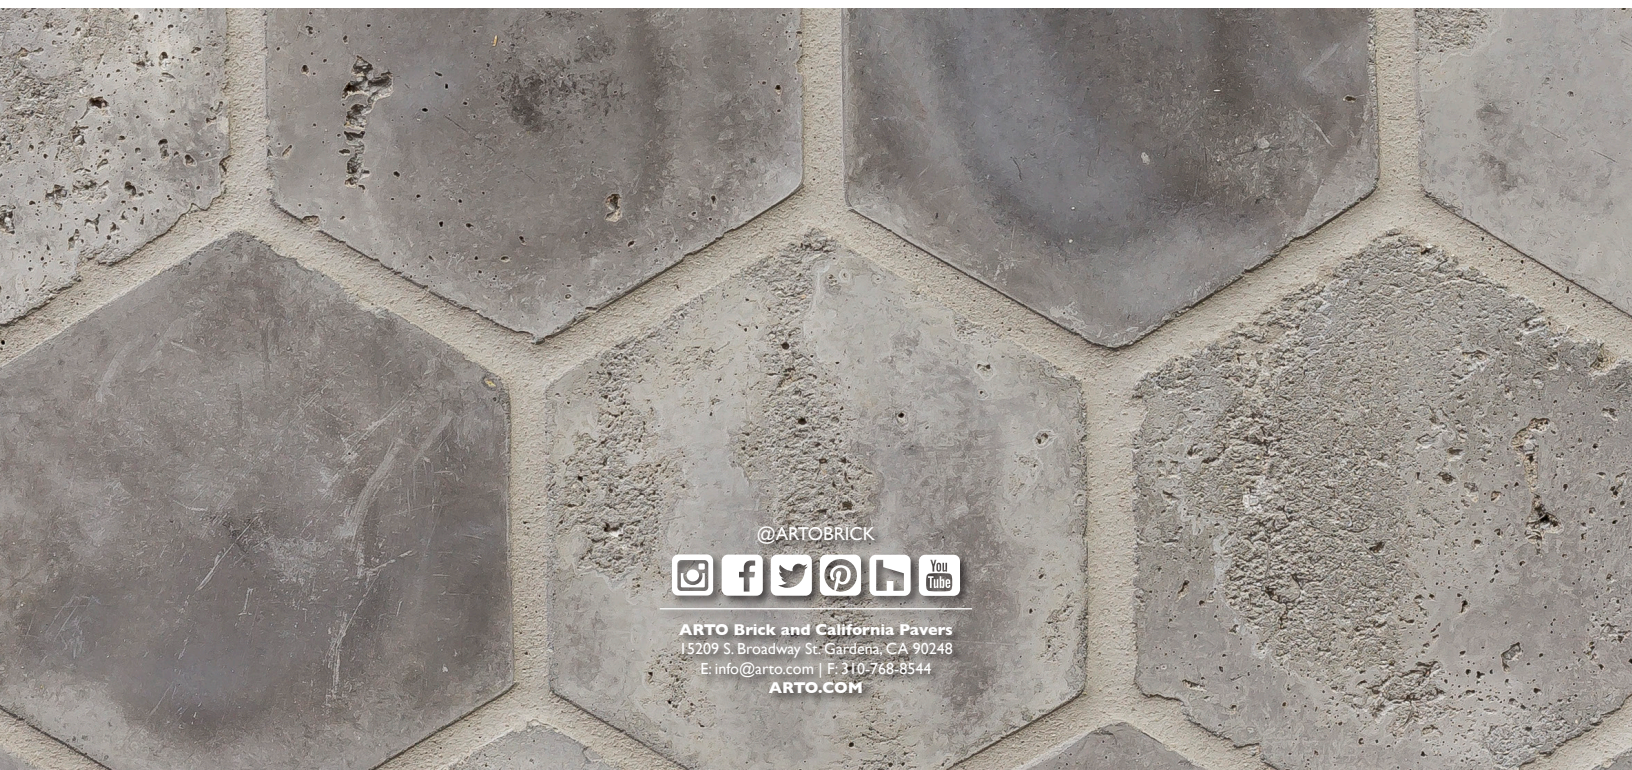

Note: All examples here shown in Natural Gray. Ceramic products do not have texture options.

+ **VINTAGE**

Combining Limestone, Luna, Standard, and Travertine, Vintage texture creates a rustically distinct appearance ranging from distressed terracotta to natural stone. Vintage is available in any concrete color, and we're happy to package a combination of products representing all four textures.

ARTO Concrete Textures

Standard

The Standard (or smooth) texture varies from item to item and does not need to be specified. It is shown here only as a point of comparison.

Limestone

The Limestone surface texture features an organic, weathered appearance, generally lightens the original color and is a great option for pools and where extra slip resistance is desired.

Travertine

Selecting the Travertine surface texture adds a rustic, pitted surface to any ARTO color that can be used to complement other materials or create your own distinctive appearance.

Luna

Our most distressed surface texture, Luna is inspired by the craters, seas, valleys and other topographical features of the lunar surface for the ultimate expression of rustic elegance.

Vintage

Is a blend of Limestone, Luna, Standard, and Travertine textures to create a rustically distinct appearance from distressed terra cotta to natural stone. Order any color in Vintage to get a combination of pieces made in all four surface textures.

ARTO Signature Blended Colorways

ARTO offers pre-blended color combinations called "Colorways". Different colored tiles are sorted and packaged together for quicker installation. Some colorways also include a variety of textures selected by ARTO. Colorways are available in most of ARTO's concrete shapes and patterns. Custom colorways can be created by ordering different colors and then sorting the colors into patterns wanted at the job site. ARTO can pre-sort custom colorways and package them together at the signature pricing level. Call ARTO for pricing.
