

AR^{to} ARTO™

HANDCRAFTED IN SOUTHERN CALIFORNIA SINCE 1966

THIN BRICK VENEER

Handcrafted Concrete & High-Fire Terracotta

ARTO is known for making rustically elegant, handcrafted ceramic and concrete tiles, bricks, and pavers. Our products are made with locally sourced materials at our Southern California factory. ARTO products are available throughout the United States, Canada, and the world.

THIN BRICK VENEER

Lighter, stronger, more versatile, and easier to install.

The rich history of ARTO Brick dates back to 1966. That was the year Arto Alajian, a full time milkman, crafted his first thin brick veneer from a handful of clay as part of an art installation used to border a ceramic mural. Expanding beyond the art world, Arto started selling his beautifully functional brick veneers to customers along his milk route, and ARTO Brick was born.

Today, ARTO offers 11 styles of concrete and ceramic Thin Brick Veneer that are lighter and easier to install than full-size brick. There are more than 40 color options available in concrete, and more than 80 glaze color options for the ceramic brick veneer. Because everything at ARTO is made to order, we also have the ability to make custom bricks as well as custom colors.

The durable composition holds up in wet and freezing and thawing climates, making them ideal for indoor and outdoor applications. Choose from a wide selection of styles and sizes, ranging from classic 2-inch by 8-inch veneers with standard or tumbled edges for a rustically aged look, to our oversized Norman and Adobe styles for larger impact.

ARTO's Thin Brick Veneer not only makes a stunning surface for residential and commercial walls and floors, but it is also great for walkways, vaulted and arched ceilings, fireplaces and pits, benches, garden walls, facades, and more. We also offer a variety of corner pieces, so from every angle our Thin Brick Veneer makes a great addition to virtually any space.
