

PIETRA di OSTUNI by Cerdomus

PORCELAIN TILE FOR FLOORS & WALLS

Down in the “heel” of Southern Italy — in the country’s Salento region — you’ll find countless homes and buildings complemented by a specific Mediterranean limestone common to this area. Often referred to as PIETRA di OSTUNI, every last detail of this stone has been faithfully reproduced by Cerdomus in a stunning porcelain collection of the same name.

A unique production process brings the defining characteristics of this finely grained, fossilized stone to life with its vintage-effect, antique edges and multi-format size options — all with beautiful shade variation and distinctive surface nuances.

We stock PIETRA di OSTUNI in three colors (Avorio, Sabbia and Tufo) and four modular sizes (8x8, 8x16, 16x16 and 16x24). The natural finish of this porcelain tile is perfect for residential applications as well as high-traffic public areas.

STOCKED COLORS & SIZES:

PRODUCT CHARACTERISTICS & TECHNICAL INFO:

- Shade range = **V4** (high variation)
- Suitable for residential and commercial applications.
- DCOF > 0.61 (wet)
- Additional colors, sizes, finishes and trim are available via special order out of Italy. Allow 90-120 days for delivery.
- Thickness (natural finish) = 3/8"

PATTERN SUGGESTION:

All sizes in PIETRA di OSTUNI are packaged individually and can certainly be installed that way. However, for a the appearance of a more random layout, we suggest the beautiful ‘Versailles’ pattern (as pictured above). This classic, modular arrangement uses the four sizes we stock in this series. For ordering assistance, we’ve provided a percentage breakdown below:

SIZE	% OF ORDER	PIECES	SQUARE FEET
16x24	33.3%	2	5.33 SF
16x16	44.4%	4	7.11 SF
8x16	11.1%	2	1.78 SF
8 x 8	11.1%	4	1.78 SF

Pattern = 16.00 SF
