

AGATE by Lunada Bay **GLASS MOSAICS**

According to Lunada Bay, geological patterns are the rock stars of today's design. As the name suggest, the Agate glass collection is evocative of the semi-precious stone found in volcanic formations. Agate's beautiful banding visually combines the solidarity of stone, the fluidity of water, and the translucency of air in its many colors and two finishes.

We simply like the sizes, scale, and color palette in this stunning glass collection. We are stocking five colors in both the Pearl (Shiny) and Silk (Matte) finish in Now in two sizes:

5/8 x 2 Martini (sheet = 1.04 SF)

1/2 x 4 Brick Mosaic (sheet = 0.84 SF)
