PIETTA DONOVAN COLLECTION

Patterns emphasizing texture, finish, bright color, and shape invigorate spaces with depth and emotion. The Pietta Donovan collection from Walker Zanger is a bold and balanced artful palette of handmade encaustic (cement) and ceramic tiles. Flexible material allows for design possibilities—the dexterity to join, turn, flip and repeat tiles to cater to a variety of aesthetics. Subtle neutrals join bold turquoises, deep navy blues, lush emeralds, a warm marigold and dusty pink to evoke a familiar yet current sensation.

This handmade collection is ideal for variations of tile: patterns on floors, walls, vertical installations, wet locations, and large-scale hospitality environments.
