Dual Colection

Dual is built on a powerful design belief: **when color is distilled to its essence, surface becomes the protagonist.** Form, relief, texture, gloss, and grain come together with precision, shaping an **immersive material language** that brings **sensorial depth** to space. What emerges is not simplicity, but intensity, a collection where **every finish and every touch deepens the architectural expression.**

The wall relief program unfolds through **five tactile expressions**, translating an essential palette into natural, crafted, architectural, and graphic directions.

A defining mosaic program: personalization through form

Dual's mosaic program extends the collection into a **fully articulated language of personalization.**

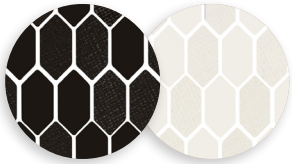

Through complementary interpretations that shift emphasis, it opens new ways to compose surfaces, from subtle texture to **bold graphic statements.**

Dual Mos Puzzle Bianco 12x13 GLOSS MATTE

Puzzle is offered in white-dominant and black-dominant readings, designed to bring **contrast, movement, and graphic composition.** Crafted from natural stone cut into extremely small pieces and bonded through a resin structure, it introduces **refined scale and tactile richness.** For grout, white is recommended for white-dominant compositions and black for black-dominant ones, keeping attention on the material interplay itself.

Vetro is a glass mosaic made of extremely small pieces, delivering a refined composition with **mixed surface effects**, including **super gloss accents** that create depth and variation within the same mosaic.
