INAX

NEW TILE COLLECTION

SPRING 2026

Transforming fleeting moments into timeless materials.

Transforming fleeting moments into timeless materials.
Tranquil morning mist, soft pale moonlight, and the texture of freshly fallen snow...

We capture the intricate beauty of fleeting moments inspired by the seasonal changes of Japan, elevating them into timeless materials that resonate with the senses.

What makes this possible is the "controlled coincidence" we have pursued since our founding.

The subtle variations born within 1200-degree flames ensure that no two tiles are exactly alike.
A profound depth and a quiet narrative are engraved into the surface of every tile.

Delivering an overwhelming materiality unattainable by uniform building materials,
they breathe life into spaces when integrated into architecture, creating a tactile, "living landscape."

YOROI

Yoroi is traditional Japanese armor,
defined by its sturdy and functional beauty.
When applied across an entire wall,
it creates a powerful yet organic rhythm in the space—
evoking the orderly scales of a samurai's armor
or a flawless battle formation.

IM-2330P1/NAM-4

NAMIORI

Namiori translates to the beautiful patterns woven by waves.

Its wave-like texture reflects and diffuses light in a gentle undulation.

Featuring a large border format, applying it across an entire wall creates a dynamic yet organic rhythm in the space—immersive, like the shimmering surface of water swaying in the breeze.

TSUCHIORI

Tsuchiori translates to the beautiful patterns woven by earth.

Its subtly indented surface
casts a gentle gradation of shadows upon the earthy texture.

When applied across an entire wall,
it evokes the serene image of soft light
falling upon a tranquil earthen wall—bringing
the comforting warmth of earth into the space.

YOHEN

Yohen refers to the coincidental landscapes
born from the chemical reaction between fluctuating flames
and glaze within the kiln.

The subtle color variations unique to ceramics
create infinite gradations within each small piece.

When applied across an entire wall,
delicate lines layer upon one another,
bringing an organic richness to the space.

KEGAKI

Incorporating the artisanal "kegaki" technique of sharply carving the surface.

The irregular yet powerful carved marks, imbued with true craftsmanship, reflect light sharply and intricately.

Three distinct shapes add further dimension, bringing an intricate and profound depth to the wall.

About INAX

INAX manufactures artistic ceramic tiles and innovative sanitaryware.

The history of INAX can be traced back over 100 years when its forefathers worked on producing the tiles for the second main building of the Imperial Hotel, designed by the architect Frank Lloyd Wright. By determining the properties of clay and the impact of fire, through numerous trials, they succeeded in the large-scale production of the decorative tiles, which became the foundation of the Company. INAX creates beautiful, innovative bathrooms from Japan that make everyday life easier, healthier and more enjoyable, enabling everyone to live well.

La société INAX fabrique des tuiles de céramique artistiques et des sanitaires innovants.

INAX a été fondée il y a plus de cent ans quand ses fondateurs travaillaient à la fabrication de carreaux de céramique pour le deuxième bâtiment principal de l'Hôtel Impérial conçu par l'architecte Frank Lloyd Wright. Au travers de multiples tests destinés à déterminer les propriétés de l'argile et sa réaction à la flamme, ils ont réussi à produire à grande échelle des carreaux décoratifs, une production qui devint la base de la société INAX. Cette entreprise fabrique de magnifiques salles de bain innovantes qui rendent la vie plus facile, plus saine et plus agréable, pour le plaisir de tous et de toutes.

INAX stellt kunstvolle Keramikfliesen und innovative Sanitärprodukte her.

Die Geschichte von INAX lässt sich über 100 Jahre zurückverfolgen, als die Vorfahren des Unternehmens an der Herstellung der Fliesen für das zweite Hauptgebäude des Hotels Imperial arbeiteten, das von dem Architekten Frank Lloyd Wright entworfen wurde. Indem sie die Eigenschaften des Tons und die Wirkung des Feuers in zahlreichen Versuchen ermittelten, gelang es ihnen, dekorative Fliesen in großem Maßstab zu produzieren, was die Grundlage des Unternehmens bildete. INAX kreiert schöne, innovative Badezimmer aus Japan, die das tägliche Leben einfacher, gesünder und angenehmer machen und es jedem ermöglichen, gut zu leben.
